

REPORT WEEK 4

SUBMITTED BY:

HIMANSHI VARSHNEY (18COB454)

SALONI GARG (18COB466)

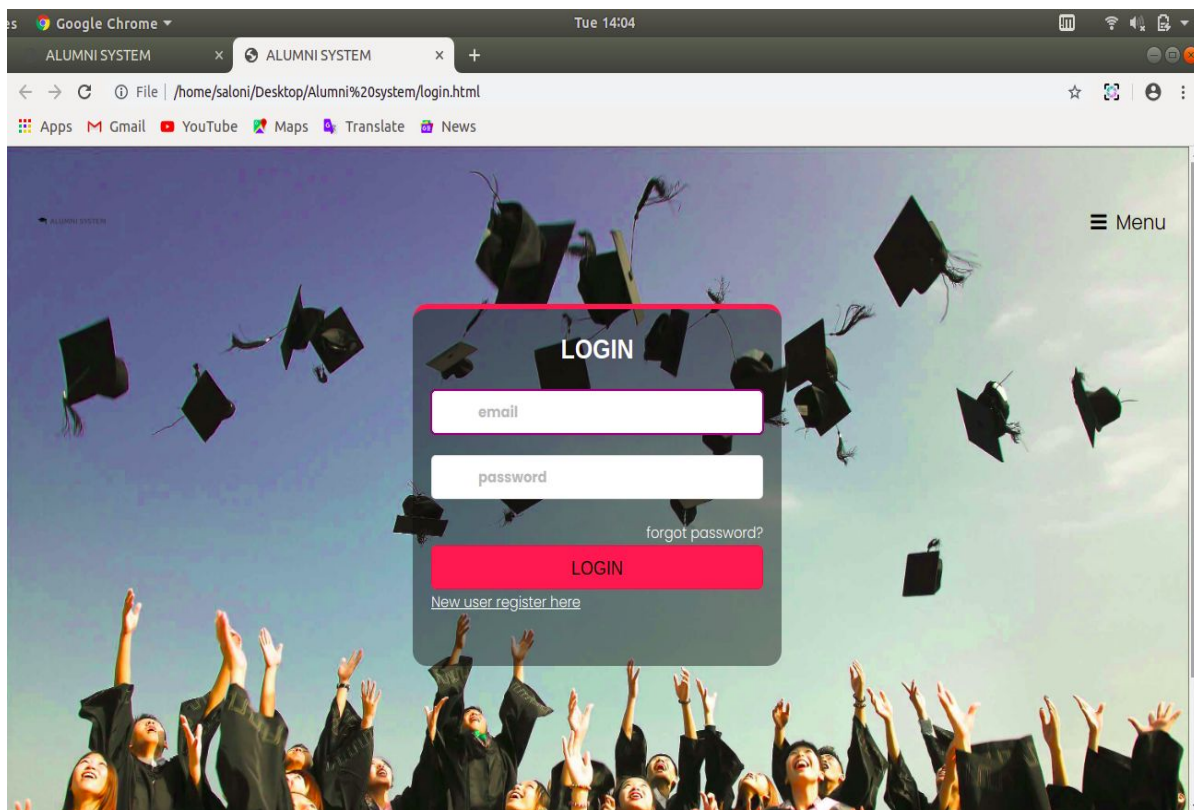

SUPERVISOR:

MR. FAISAL ALAM

This week we have made our web pages designed in the previous week responsive with the help of bootstrap.

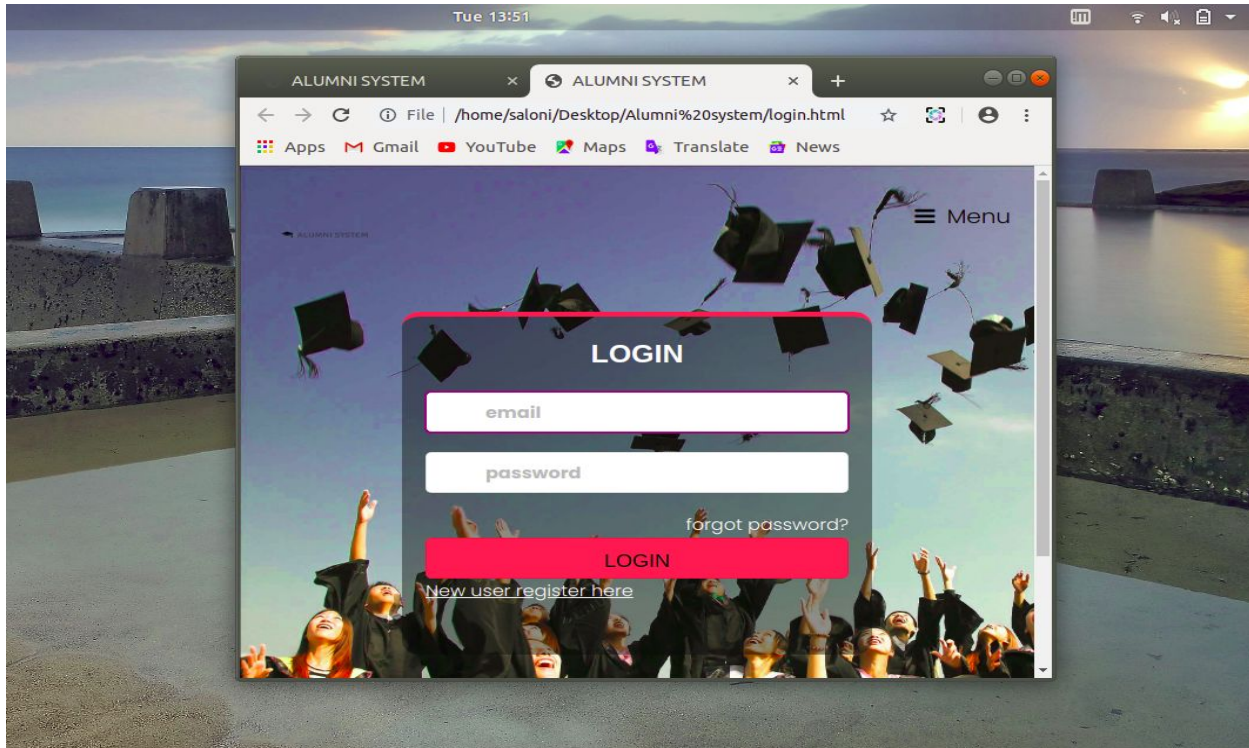

Bootstrap is a free and open-source CSS framework directed at responsive, mobile-first front-end web development. It contains CSS and (optionally) Javascript-based design templates for typography, forms, buttons, navigation, and other interface components.

SCREENSHOT OF THE LOGIN PAGE WHEN THE WINDOW IS FULL SCREEN:

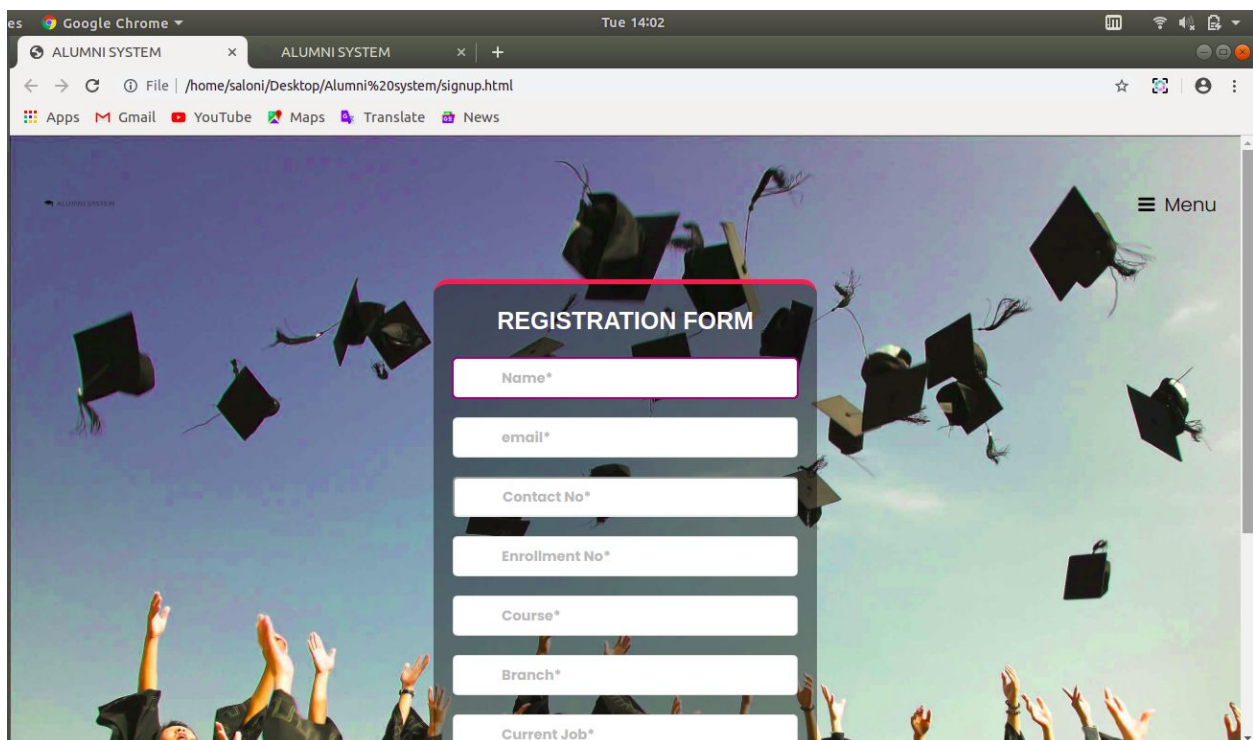

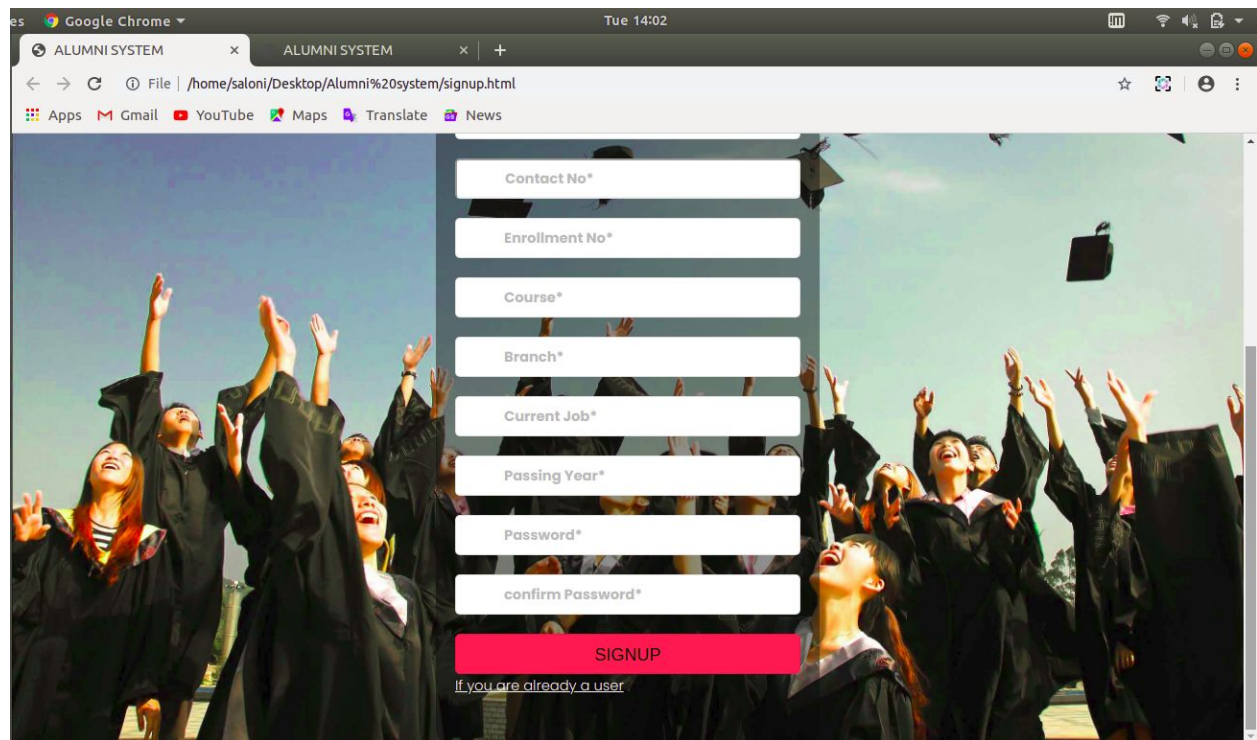

As you can see in the below screenshots when we are adjusting the window, the login page is being adjusted automatically.
